MACINTOSH INFORMATION

***Mac users with OS X9 (Mavericks), who are accessing CM/ECF with the Safari 7 Browser, will need to modify the browser security settings in order to attach documents for filing. Please do the following:**
>Log into CM/ECF
>In the Safari/Preferences menu, pick the Security tab
>Click Manage Website Settings
>The Court servicer name will display under "Currently Open Web sites"
>Pick "Run in Unsafe Mode" for the CM/ECF server
>After unsafe mode has been selected, log out of CM/ECF and then log back into CM/ECF
>PDF documents should now appear when you attempt to file your document. If the documents still do not appear, you may need to log out of CM/ECF again, completely close down your browser and try again.

*Nothing happens when clicking "File a Document":
Click to any other window on your Mac, then click back to CM/ECF, everything should being to work properly.

MACINTOSH INFORMATION:
Java for Mac OS X 10.6 Update 9 Information - Re-Enable Java Applet
>https://support.apple.com/en-us/HT202447

Macintosh Application Download Issue:
>http://media.ca8.uscourts.gov/cmecfDir/macintosh.pdf

Missing Plug-In:
If you are unable to log into CM/ECF and you see the "Missing Plug-In" message, you must click the "Missing Plug-In" message, and then click "More Info". You will then be able to perform a one-time download of the needed plug in.
